

Configuring Eduroam with the „Configuration Assistant Tool“ (CAT) on Android devices

Updated May 2019

You have to be connected to the internet.

If you don't have access to the internet: Access the www.hcu-hamburg.de Wi-Fi network. The website can be reached without the VPN-Client

Go to <https://cat.eduroam.de/> and switch to the English version.

- Select your language.
- Select Germany as your country.
- Select HafenCity Universitaet Hamburg as your institution.
- Select your current Android version. You can find your current version in your Settings.
Settings > About Phone
- Click „Do you have an [...]“.

Before you proceed with installation on Android systems, please make sure that you have installed the eduroamCAT application. This application is available from [Google Play](#), [Amazon Appstore](#) and [as local download](#), and will use the configuration file downloaded from CAT to create all necessary settings.

Download installer for
Android 8.x Oreo

Start over

[Terms of use](#)

DFN eduroam CAT - Release CAT-1.1.4 © 2011-15 GÉANT on behalf of the GN3, GN3plus, GN4 consortia and others [Full Copyright and Licenses](#)

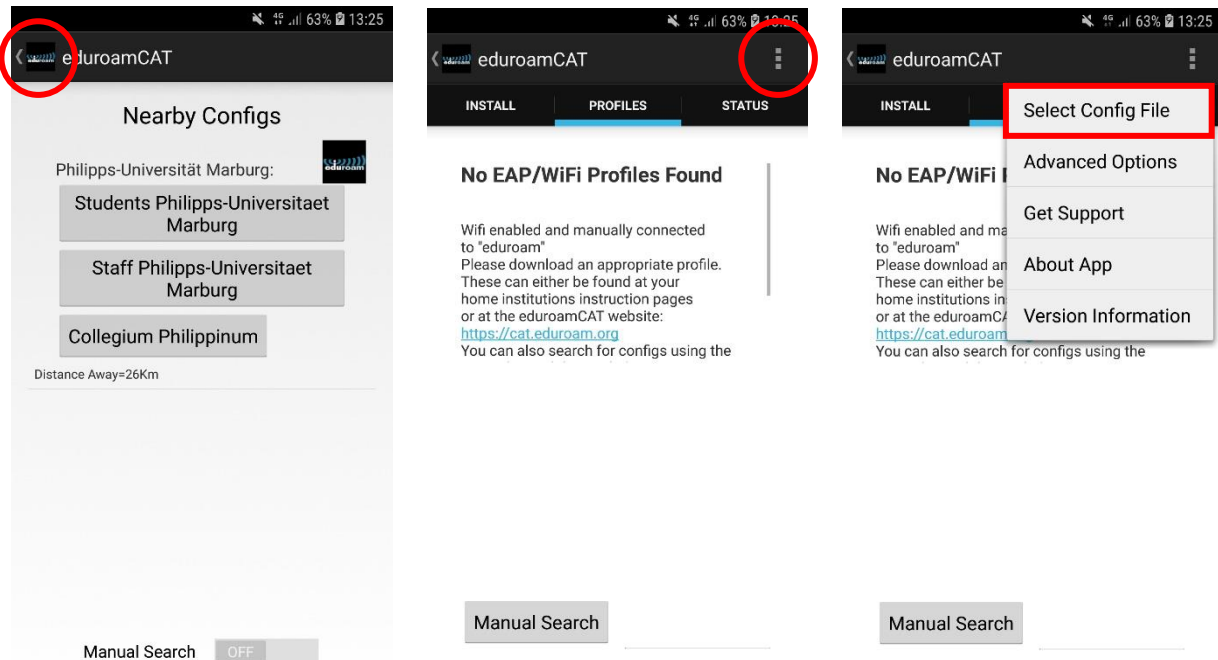

→ Scroll down and click the button to download the installer.

→ Close your browser and head to the Google Play Store.

→ Download the app „eduroam CAT“.

HCU-IT → Instructions for Eduroam on Android devices

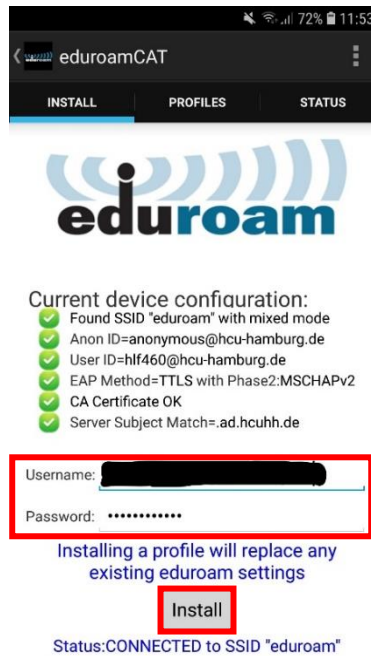

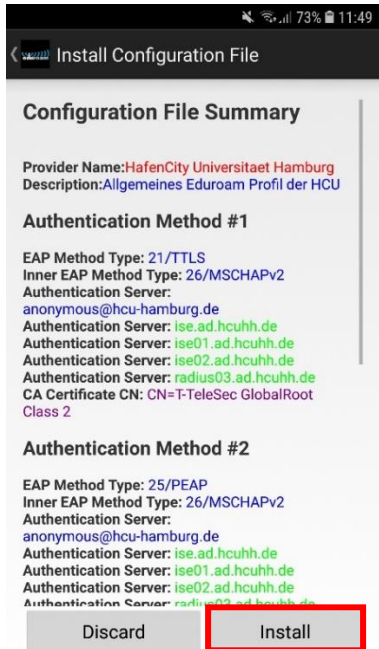

Upon opening the app for the first time a similar screen should appear.

- Click the arrow back.
- Click the 3 dots in the top right hand corner.
- Click „Select Config File“.
- Select the downloaded file from your downloads.

If you already have the app installed:

- Delete all installed profiles in the app.
- Head to you settings and remove Eduroam from your Wi-Fi.
Setting > Connections > Wi-Fi > Eduroam > Forget.

HCU-IT → Instructions for Eduroam on Android devices

→ After selecting your file from the downloads you need to install it.

After installing your setup file you need to install your profile.

→ Enter your HCU-username and password, for example hcu123@hcu-hamburg.de.

→ Install your profile.

Your device should now automatically connect to the Eduroam Wi-Fi Network.
