Examination scholarship for foreign students in the winter semester 2019/20

Are you a foreign student and in the examination phase? Your financial resources have been used up or you can no longer work so much on the side because you need your strength for your thesis?

In the winter semester of 2019/20, the city of Hamburg will again provide financial means to support you. The Studierendenwerk Hamburg will carry out the application procedure and is therefore your contact partner. Monthly maximum: 720 Euro.

We are responsible for the following universities:
- HAW Hamburg
- TU Hamburg
- HCU
- HfbK
- HfMT

Students of the University of Hamburg please contact the Department of International Affairs, Mittelweg 177, 20148 Hamburg.

Requirements:
- Your financial situation is tense. This means that you do not have the necessary financial means to cover your monthly costs. Your family cannot support you financially and you do not receive sufficient funds from other donors, e.g. scholarships from other organisations.
- You are expected to complete your studies within two semesters, i.e. at the latest in the summer semester 20. One of your professors will confirm that.

Application procedure:
- You can pick up the application forms from us (see below for office hours). We can already clarify initial questions.
- You hand in the completed forms (including the forecast of a professor) and the required documents (e.g. account statements) to us in our office by the end of the deadline. We will discuss the application with you. Please allow about 30 minutes for this.
- The funding committee responsible for you will make the decisions. Depending on the amount of available funds, the number of applications and the income situation of the applicants, the amount of the scholarship can vary considerably. We will inform you in writing about the result. If the grant is accepted, we will transfer the stated amount to your account on a monthly basis.

If you have any questions, please contact the Studierendenwerk Hamburg, Grindelallee 9, 20146 Hamburg. You will find the team responsible for you on the 6th floor, room 605.
