

Configuring Eduroam with the "Configuration Assistant Tool" (CAT) on Android devices

Updated May 2019

You have to be connected to the internet.

If you don't have access to the internet: Access HCU-Guest Wi-Fi network. Credentials for this Wi-Fi network are accessible from the internal part of hcu-hamburg.de.

Go to https://cat.eduroam.org/ and switch to the English version.

 \rightarrow After selecting your file from the downloads you need to install it.

After installing your setup file you need to install your profile.

 \rightarrow Enter your HCU-username and password, for example hcu123@hcu-hamburg.de.

 \rightarrow Install your profile.

Your device should now automatically connect to the Eduroam Wi-Fi Network.
