

Subject to the availability of funding from the external funding source, HafenCity University Hamburg is seeking to fill the following position in the Department of SKU: Urban Planning, Cultural Digitization, Metropolitan Studies, and Urban Design, effective July 1, 2026

Research Associate (m/f/d) in the project “UNITAC 2026-2028”

Pay group 13 TV-L

to support the research with 75% of the regular weekly working hours. The position is limited until December 31, 2028.

About us

The HafenCity University Hamburg, University of Architecture and Metropolitan Development (HCU) is a university that focuses on the built environment. The HCU unites all aspects of building and design, engineering, and natural sciences as well as geoscientific and social sciences under one roof.

UNITAC Hamburg is a partnership between the United Nations Human Settlements Programme (UN-Habitat, Nairobi), the United Nations Office of Information and Communication Technologies (OICT, New York), and HafenCity University. In this project, UNITAC, in collaboration with the City Science Lab@HCU, explores the potential of digital technologies, data, and innovations for sustainable urban development. The project employs a variety of applied and innovative research methods and develops innovative solutions and digital prototypes, primarily for cities in the Global South. These methods aim to accelerate the achievement of the UN Sustainable Development Goals (SDGs) related to cities and urbanization, particularly SDG 11.

The position is assigned to the Professorship of Prof. Dr. Gesa Ziemer.

Here you can find more information about [HCU](#) and the [Arbeitgeberin Freie und Hansestadt Hamburg](#).

Your tasks

- overall coordination and management of UNITAC activities across the strategic action areas (digital tools, data platforms, capacity building, and multi-level governance)
- technical coordination and support for the project teams, as well as fostering collaboration at the intersection of research, technology development, and implementation
- coordination and communication between the project partners UN-Habitat and UN-OICT

- monitoring, further development, and scaling of UNITAC tools and methods in an international context, as well as dissemination of results through publications and technical papers
- establishing, maintaining, and strategically developing partnerships with international organizations, governments, and research institutions, as well as participating in conferences and exchange programs
- participation in strategic development, resource mobilization, and preparation of grant applications to strengthen and scale UNITAC in the long term

Your profile

mandatory requirements

- an academic university degree (master's degree or comparable) in urban planning, urban design, geography, international cooperation, political science, or related fields

additional requirements

- relevant experience in project management as well as in leading and coordinating international projects and interdisciplinary teams (comprising urban planners, architects, and data scientists) and intercultural teams
- experience in the field of informal urban development, as well as in-depth knowledge of current developments, challenges, and innovations in an international context
- experience in multi-stakeholder collaborations as well as in working with a broad spectrum of urban development and innovation actors at the international level, including government agencies, civil society organizations, startups, research institutions, and city networks
- experience in leading international research projects, particularly in the preparation of scientific publications (demonstrated by a list of publications), as well as in the organization and execution of conferences in the field of urban development, international cooperation, and related topics
- fluency in spoken and written English

Benefits

- workplace at an attractive location in HafenCity
- varied work in a university environment in cooperation with international scientific partners
- a family-friendly university that supports its employees in balancing work and family life
- support for professional and personal development through a wide range of training and continuing education opportunities
- other benefits such as discounts in the student union canteens
