

specifics

Landscape architecture's fundamental task is to uncover and develop the specificity of a site. SPECIFICS emphasizes the differences of qualities of a location and invites to focus and concentrate on significant strategies for research and teaching in view of recent insights and global developments.

ECLAS - The European Council of Landscape Architecture Schools - and the HafenCity University Hamburg invite scientists, planners, landscape architects, architects, artists, engineers, officials and students from around the world to present and discuss innovative approaches and future developments in thinking and designing Landscape within research, teaching, planning and construction.

TOPICS

Selected oral presentations are reflecting the following topics

- » WHO OWNS THE LANDSCAPE?
- » NATURE HAPPENED YESTERDAY
- » BEST PRACTICE LANDSCAPE ARCHITECTURE
- » LANDSCAPE AND STRUCTURES
- » EVENTS AND CONVERSION
