

# Interfaces in the Built Environment. Bridging Technology and Culture in the Baltic Sea Region

Symposium at the HafenCity University, **Monday 16 April 2018**

**CALL for ABSTRACTS / PAPERS**

## Important Deadlines

Abstract Submission: **19.02.2018**

Notification of Acceptance: **09.03.2018**

Full Paper Submission: **06.04.2018**

## Topic

The symposium provides a forum for PhD students and researchers who are working in all fields of science related to the built environment and are interested in presenting their work to an interdisciplinary audience of experienced researchers from the Baltic Sea Region. The focus of the symposium is on **innovation through interdisciplinary collaboration in the process of designing and developing of the built environment**. Its aim is to support interdisciplinary and international communication between young scientists to facilitate collaborative research, networking, and knowledge transfer on the interdisciplinary research within the disciplines of the built environment.

Participants are highly encouraged to reflect on their work from an interdisciplinary perspective. This includes a reflection on their research question as well as on their methodology in the context of the interdisciplinary scientific research. The potential of the research outcomes for further interdisciplinary collaboration or the potential of the used methodology for further implementation in interdisciplinary context should be identified and specifically addressed in the submitted abstract.

The parallel sessions serve as a discussion platform with individual presentations and allow for constructive feedback and interaction between the young researchers and the experienced ones. The symposium will be opened by a keynote lecture and will be closed with a plenary discussion.

Accepted papers will be distributed to the conference attendees and will be peer-reviewed after the symposium. There will be a digital conference publication with an ISBN number (conference proceedings). Further publication opportunities are in negotiation and will be announced soon.

## Application Procedure

Abstract Submission: 19.02.2018

--> *See Eligibility and Submission Guidelines*

Notification of Acceptance: 09.03.2018

Full Paper Submission: 06.04.2018

--> *see Eligibility and Submission Guidelines*

Paper Review Feedback: 01.05.2018

Revised Paper Submission: 29.05.2018

## Eligibility and Submission Guidelines:

The symposium is open to early stage researchers, advanced and post-doctoral students, interested in research collaboration with the countries of the Baltic Sea Region.

### Criteria for the submitted abstracts:

The topic should have a technical, social or environmental background related to the built environment, which:

- 1) Is reflected in the context of interdisciplinary research.
- 2) Explores the potential for further interdisciplinary collaboration.
- 3) Explores the potential for the transferability of the applied methodology to other research fields, which address issues of the built environment.

Submitted abstracts must not exceed 500 (five hundred) words, including the bibliography.

A **short CV** with all relevant qualifications and experiences must be also attached to the application.

Please submit the abstracts until 31 January 2018 to the following address:

--> <https://easychair.org/conferences/?conf=innobsr2018>

### Criteria for the submitted full papers:

Symposium papers must not exceed 8 (eight) pages, including the bibliography and any appendix. A template will be provided.

Please submit the papers (if abstract is accepted) until 6 April 2018 to the following address:

--> <https://easychair.org/conferences/?conf=innobsr2018>

### Interdisciplinary Scientific Committee

**Annette Bögle** - HafenCity University Hamburg - Hamburg

**Olga Popovic Larsen** - Royal Academy of Fine Arts - Copenhagen

**Lotte Bjerregaard Jensen** - Denmark Technical University - Copenhagen

**Bartek Macikowski** - Gdansk University of Technology - Gdansk

**Justyna Borucka** - Gdansk University of Technology - Gdansk

**Dorota Kamrowska-Zaluska** - Gdansk University of Technology - Gdansk

**Toni Kotnik** - Aalto University - Helsinki

**Karl-Gunnar Olsson** - Chalmers University of Technology - Gothenburg

**Anna Kaczorowska** - Chalmers University of Technology - Gothenburg

### Preliminary programme:

08:30 – 9:00	Registration
09:00 – 10:30	Plenary opening session + Keynote Lecture
11:00 – 13:00	Parallel sessions
13:00 – 14:30	Lunch
14:30 – 16:30	Parallel sessions
17:00 – 18:30	Plenary closing session
19:00 – open end	Social Networking

## Registration and Costs:

There is **no participation fee** for the symposium.

Meals during the event will be provided by the organizers.

Costs for accommodation (two-night stay) can be covered only for participants from the following countries: Poland, Latvia, Lithuania, Estonia.

Travel costs will not be covered and must be paid by the participants themselves.

Number of selected participants: up to 25 participants

## Organisation and Contact Details:

The organizing committee can be reached via:

Prof. Annette Bögle, [annette.boegle@hcu-hamburg.de](mailto:annette.boegle@hcu-hamburg.de)

Emiliya Popova, [emiliya.popova@hcu-hamburg.de](mailto:emiliya.popova@hcu-hamburg.de)

HafenCity University

Analysis and Design of Structures (Prof. Bögle)

Überseeallee 16

20457 Hamburg

Information on the symposium will be regularly updated on the HCU web page of Prof. Bögle:
