1. Click on the tab *Home*.

2. Click *New Email*.

3. In the tab *Message* click *Signature*.

4. Click *New* to create a new signature. Name the signature.
5. You can create a signature now and also add images. It is also possible to select a default signature for new messages and replies/forwards.

6. After creating the signature you can select the signature you need.
